Dear Members and Colleagues,

The [26th ENCATC Congress "Beyond EYCH2018. What is the cultural horizon? Opening up perspectives to face ongoing transformations"](#) will be organised from 26-29 September 2018 in Bucharest, Romania. Alongside this major international event, ENCATC will organise the Education and Research Session on **Friday, 28 September 2018**.

You are invited to submit proposals for paper, poster or teaching demonstration. Proposals from any relevant discipline will be considered, provided that they make an original academic and professional contribution to the study and practice of cultural management and cultural policy.

TOPICS OF INTEREST

Themes related to the main topic of the Congress, "**Beyond EYCH2018. What is the cultural horizon? Opening up perspectives to face ongoing transformations**" are encouraged to address the critical and inclusive views of cultural heritage and its relation with other cultural and creative sectors:

- 1) Understanding heritage as a phenomenon: Philosophical foundations, ethical, managerial and policy implications, cultural embeddedness and contextual constraints.
- 2) Post-colonial and neo-colonial practices in heritage making, management, tourism, and culture-led development programmes to combat inequalities and asymmetrical power distribution in the world.
- 3) From cultural heritage to heritage communities – Cultural and managerial transformations. What are the challenges for cultural management and policy education, research and practice?
- 4) Cultural management and policy education to tackle ongoing transformations. What is the role of education? Are the current education programmes adequate? Are there any

new educational needs? What are the main implications on pedagogical practices and teaching methodologies?

- 5) Cross-sectoral approach to cultural heritage sustainability and heritage-led innovation: How the other sectors and areas of cultural management and policy could connect with, contribute to, and be affected by cultural heritage? How does the cross-sectoral approach affect professions and management in the cultural and creative sector? What are the best and worst practices?
