**Issue #10 – Beyond EYCH2018. What is the cultural horizon? Opening up perspectives to face ongoing transformations**

/encatcSCHOLAR was born in 2013 to satisfy the demand of ENCATC members, academics, researchers and students for the **exchange of teaching methodologies and knowledge to use in the classroom**. In addition, the /encatcSCHOLAR is intended to be a useful reference tool for academics, researchers, practitioners and policy makers for education and lifelong learning on cultural management and cultural policies.

With the objective of publishing issue #10 of the /encatcSCHOLAR, we are now launching a call for contributions, which will focus, parallel to the topic of the 2018 edition of the ENCATC Annual Congress (Bucharest, 26-29 September 2018), on "Beyond EYCH2018. What is the cultural horizon? Opening up perspectives to face ongoing transformations".

This issue of the /encatcSCHOLAR aims to consolidate the legacy of the 2018 edition of the ENCATC Annual Congress, as well as to share some of the fruitful debates held during this event with the wider cultural community, with a special focus on professors, teachers and students in the field of cultural management and policy. Thus, in this publication we would like to find contributions reflecting on the ongoing cultural transformations and claims according to a socio-anthropological approach to critically analyse and contextualize the role of education and research in shaping the process by which culture and values are built, transmitted and appropriated, and to re-frame with new views, approaches and perspectives their contributions to a common European Cultural Heritage, its sustainability and exploitation for inclusive growth. Contributors are invited to tackle these and other topics related to the main theme of the issue, and to do so in innovative and creative ways, providing useful pedagogic materials for professors and teachers to use them in the classroom.

More specifically, contributions will be welcome for the following sections:

- **Angles** section should collect articles on connections of culture to other disciplines, focusing on discussing the challenges and opportunities that could arise from these interconnections, as well as highlighting innovative components that enrich and strengthen practice.

- **Context** includes rather theoretical contributions that provide a general overview or reflection on the topic or on a specific question related to the topic of the issue.

- **Case Analysis** are made up of case studies presented as a scholarly tool to illustrate situations where cultural managers are facing crossroads, and need to analyze a variety of circumstances to make a well informed decision.

- **Interviews** tries to give a voice to leading people in Europe (managers, politicians, artists, ex commissioners, etc). At the end of the interview, the interviewee raises some questions to the readers to encourage discussion and to activate critical thinking on the topics that have been presented.

- **Teaching-experience** provides an opportunity for teachers to share in first person, practical ideas to meet their educational goals and to improve the teaching practice.

- **Profiles** intends to be a teaching tool for professors, useful for presentation in the classroom of the world’s leading thinkers that have made important contributions to the development and professionalization of cultural management, as well as those who have influenced the establishment of public policies (their main conceptual approaches, major publications, biographical references, etc.).

Call for contributions is now open!
